Discussion of Results

You should read the following discussion together with our unaudited financial information included with this release and the section contained in our annual report on Form 20-F for the year ended December 31, 2016, "Item 5. Operating and Financial Review and Prospects." Certain information and disclosures normally included in consolidated financial statements prepared in accordance with U.S. Generally Accepted Accounting Principles (US GAAP) have been omitted from this release.

As used herein, references to "we," "us," "the company," or "trivago," or similar terms shall mean trivago N.V. and, as the context requires, its subsidiaries.

We have historically conducted our business through trivago GmbH, and therefore the comparative historical financial information for the three months ended March 31, 2016 included herein present the results of operations and financial condition of trivago GmbH and its controlled subsidiaries. In connection with our initial public offering in December 2016, trivago N.V. became the holding company of trivago GmbH, as a result of which the historical consolidated financial statements of trivago GmbH become the historical consolidated financial statements of trivago N.V.

Overview

trivago is a global hotel search platform. Our mission is to "be the traveler's first and independent source of information for finding the ideal hotel at the lowest rate." We are focused on reshaping the way travelers search for and compare hotels, while enabling hotel advertisers to grow their businesses by providing access to a broad audience of travelers via our websites and apps. Our platform allows travelers to make informed decisions by personalizing their hotel search and providing access to a deep supply of hotel information and prices. As of December 31, 2016, we offered access to approximately 1.4 million hotels in over 190 countries.

We believe that the number of travelers accessing our website and apps makes us an important and scalable marketing channel for our hotel advertisers, which include OTAs, hotel chains and independent hotels. Additionally, our ability to refine user intent through our search function allows us to provide advertisers with transaction-ready referrals. We generate revenues primarily on a "cost-per-click," or CPC, basis, whereby an advertiser is charged when a user clicks on an advertised rate for a hotel and is referred to that advertiser's website where the user can complete the booking.

Referral Revenue, Other Revenue, Qualified Referrals & RPQR

Referral Revenue by Segment & Other Revenue (€ millions)

Three months ended March 31,			^ % Y/Y
2017	2016		
Americas	102.2	57.8	44.4

Total Referral Revenue	264.3	158.0	67%
Other Revenue	3.4	1.4	2.0
Total Revenue	267.6	159.4	68%

Note: Some numbers may not add up due to rounding.

For the first quarter of 2017, total revenue increased 68% compared to the first quarter of 2016, with strong growth in all three segments. The growth was primarily driven by an increase in advertising spend both during the fourth quarter of 2016 and the first quarter of 2017.

In Americas, Referral Revenue was €102.2 million, an increase of 77% period over period during the three months ended March 31, 2017. Developed Europe continues to show solid growth, with Referral Revenue increasing to €113.5 million, or 44% period over period in the first quarter of 2017. The Rest of World (ROW) segment continues to follow a strong growth trajectory, mainly driven by increased marketing activity in Japan, India and Russia. Referral Revenue for the segment was €48.6 million in the first quarter of 2017, an increase of 128% period over period.

At the end of the first quarter of 2017, over 280,000 travelers engaged through Hotel Manager directly with our platform, of which over 30,000 subscribed to Hotel Manager Pro. trivago receives a fee for Hotel Manager Pro subscriptions, driving the 143% growth in Other Revenue.

Qualified Referrals by Segment (in millions)

Three months ended March 31,			^ % Y/Y
2017	2016		
Americas	55.5	33.6	21.9
Developed Europe	73.6	54.5	19.1
Rest of World	48.2	22.4	25.8
Total	177.2	110.5	66.7

Note: Some numbers may not add up due to rounding.

During the first quarter of 2017, growth in QRs was 60% period over period, with 55.5 million, 73.6 million and 48.2 million QRs in Americas, Developed Europe and ROW, respectively. The growth rate reflected users' increased awareness of our brand, continued strong TV advertising spend and an increase in investment in performance marketing channels.

Revenue Per Qualified Referrals by Segment (in €)

Three months ended March 31,			^ % Y/Y
2017	2016		
Americas	1.84	1.72	7%
Developed Europe	1.54	1.45	6%
Rest of World	1.01	0.95	6%
Consolidated RPQR	1.49	1.43	4%

In the first quarter of 2017, Revenue per Qualified Referral (RPQR) increased by 4% compared to the first quarter of 2016. All segments showed consistent growth rates around 6%, which is higher than the consolidated average of 4% due to the increased weighting of the lower RPQR in its ROW segment in 2017. This growth was largely driven by the introduction of a relevance assessment in our marketplace algorithm in December 2016, which assesses the quality of users' experience after leaving our website. In some cases, advertisers have compensated for their lower relevance assessments through higher cost-per-click bids. We expect that, as advertisers optimize their websites and bidding strategy, these positive revenue effects will be partially mitigated over time.

Cost of revenue

Cost of revenue increased 60.4 million for the first quarter of 2017, or 51% period over period, as the business continues to make investments to reach scale. Cost of revenue includes data center and server costs as well as user support functions.

Selling and marketing

For the first quarter of 2017, selling and marketing expenses grew €91.3 million, or 65% period over period. Advertising expense (which made up 95% of total selling and marketing expense) was driven by higher advertising spend across all regions with €86.6 million, €81.8 million and €50.5 million in Americas, Developed Europe and ROW, respectively, compared to €50.0 million, €58.0 million and €24.2 million, respectively, in the first quarter of 2016.

Technology and content

For the first quarter of 2017, total technology and content expense increased by €4.1 million, or 54% period over period, mainly driven by an increase in personnel costs as the company continues to grow its headcount. Of the €11.7 million expense, €1.0 million was share-based compensation and €0.4 million was depreciation of internal-use software and website development, compared to nil and €0.2 million in the first quarter of 2016, respectively.

General and administrative

For the first quarter of 2017, general and administrative expense increased by €4.6 million, or 104% period over period, to €9.3 million. The increase was primarily driven by higher personnel costs, share-based compensation and external advisory expenses relating to being a publicly-traded company.

The company continued to build up internal capabilities in the finance, legal and internal audit departments. Overall, personnel and recruiting costs increased €1.5 million in the first quarter of 2017, compared to nil in the first quarter of 2016.

Professional fees and other in the first quarter of 2017 increased by €2.5 million compared to the first quarter of 2016. A significant portion of the increase is due to additional costs incurred as a publicly-traded company. As we are incurring such professional services expenses, the related party shared service fee expense from Expedia decreased by €0.7 million in the first quarter of 2017 compared to same period in 2016.

We are planning to move into our new campus in 2018. The contractual lease agreements triggered build-to-suit treatment under US GAAP. We have allocated our lease payments pursuant to the premises into a portion that is allocated to the building (a reduction to the financing obligation) and a portion that is allocated to the land on which the building was constructed. The portion of the lease obligations allocated to the land is treated as an operating lease that commenced in July 2016. For the three months ended March 31, 2017, we recorded €0.4 million of non-cash land rent expense in connection with this lease, unchanged compared to the same period in 2016.

Amortization of intangible assets

Amortization of intangible assets was €2.0 million in the first quarter of 2017, compared to €6.3 million in the first quarter of 2016. These amortization costs relate predominantly to intangible assets recognized by Expedia, Inc. upon the acquisition of a majority stake in trivago in 2013, which were allocated to trivago.

(1) Adjusted EBITDA is a non-GAAP measure. See pages 18-19 herein for a description and reconciliation to the corresponding GAAP measure.

Net income attributable to trivago N.V. was €5.2 million in the first quarter of 2017. Adjusted EBITDA increased by €11.6 million to €19.3 million in the first quarter of 2017, compared to the first quarter of 2016, or 151% period over period.

Income taxes

Income tax expenses were €4.7 million in the first quarter of 2017 compared to €0.4 million in the first quarter of 2016. The total weighted average tax rate was 30%, which is mainly driven by the German statutory rate of approximately 31%. The slightly lower rate is due to permanent differences in Germany. Our effective tax rate was 38% due to share-based compensation expenses, which are non-deductible for tax purposes.

Balance sheet, cash flows and capitalization

Cash and cash equivalents (including €0.8 million restricted cash) were €217.4 million as of March 31, 2017, compared to €228.2 million as of December 31, 2016. The decrease was mainly driven by accounts receivable increasing more than accounts payable in the first quarter of 2017. Our receivables vary significantly from quarter to quarter, reflecting seasonal fluctuations in the demand for our services, in particular as a result of seasonally lower patterns in travel bookings during the holiday season. Accordingly, accounts receivable increased by €61.1 million or 116% in the first quarter of 2017, driven by strong revenue growth of €98.5 million or 68% in the first quarter of 2017 compared to the fourth quarter of 2016.

Accounts payable increased by €35.6 million or 80% in the first quarter of 2017 due to the seasonal ramp-up in advertising expenses, which increased by €74.7 million or 76% in the first quarter of 2017 compared to the fourth quarter of 2016. As a result, our current ratio accordingly decreased from 4.8 in the fourth quarter of 2016 to 3.4 in the first quarter of 2017.

Our plan to move into a newly leased campus building in Düsseldorf's media harbor results in a steadily increasing capitalization on the balance sheet of capital lease costs.

#### Notes & Definitions:

ROAS: The ratio of our referral revenue to our advertising expenses, or return on advertising spend. We invest in multiple marketing channels, such as TV, out-of-home advertising, radio, search engine marketing, display and affiliate marketing, email marketing, social media, online video, mobile app marketing and content marketing.

QR: We define a qualified referral as a unique visitor per day that generates at least one referral. For example, if a single visitor clicks on multiple hotel offers in our search results in a given day, they count as multiple referrals, but as only one qualified referral.

RPQR: We use average revenue per qualified referral, to measure how effectively we convert qualified referrals to revenue. RPQR is calculated as referral revenue divided by the total number of qualified referrals in a given period.

Referral Revenue: We use the term "referral" to describe each time a visitor to one of our websites or apps clicks on a hotel offer in our search results and is referred to one of our advertisers. We charge our advertisers for each referral on a cost-per-click, or CPC, basis.

#### Segment Information

Beginning in the second quarter of 2016, management identified three reportable segments, which correspond to our three operating segments: the Americas, Developed Europe and Rest of World. #### Definitions of Non-GAAP Measures

##### Adjusted EBITDA:

We define adjusted EBITDA as net income (loss) plus:

- provision for income taxes,
- total other (income)/expense, net,
- depreciation of property and equipment, including amortization of internal use software and website development
- amortization of intangible assets, and
- share-based compensation

Adjusted EBITDA is a non-GAAP financial measure. A "non-GAAP financial measure" refers to a numerical measure of a company's historical or future financial performance, financial position, or cash flows that excludes (or includes) amounts that are included in (or excluded from) the most directly comparable measure calculated and presented in accordance with GAAP in such company's financial statements. We present this non-GAAP financial measure because it is used by management to evaluate our operating performance, formulate business plans, and make strategic decisions on capital allocation. We also believe that this non-GAAP financial measure provides useful information to investors and others in understanding and evaluating our operating performance and consolidated results of operations in the same manner as our management and in comparing financial results across accounting periods. Our use of adjusted EBITDA has limitations as an analytical tool, and you should not consider it a substitute for analysis of our results reported in accordance with GAAP, including net loss. Some of these limitations are:

- Adjusted EBITDA does not reflect changes in, or cash requirements for, our working capital needs;
- Although depreciation and amortization are non-cash charges, the assets being depreciated and amortized may have to be replaced in the future, and adjusted EBITDA does not reflect cash capital expenditures requirements for such replacements or for new capital expenditure requirements; and
- Other companies, including companies in our own industry, may calculate adjusted EBITDA differently than we do, limiting its usefulness as a comparative measure.

Safe Harbor Statement Under the Private Securities Litigation Reform Act of 1995

This release contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These statements are not guarantees of future performance. These forward-looking statements are based on management's expectations as of May 15, 2017 and assumptions which are inherently subject to uncertainties, risks and changes in circumstances that are difficult to predict. The use of words such as "intend" and "expect," among others, generally identify forward-looking statements. However, these words are not the exclusive means of identifying such statements. In addition, any statements that refer to expectations, projections or other characterizations of future events or circumstances are forward-looking statements and may include statements relating to future revenue, expenses, margins, profitability, net income / (loss), earnings per share and other measures of results of operations and the prospects for future growth of trivago N.V.'s business.

Actual results and the timing and outcome of events may differ materially from those expressed or implied in the forward-looking statements for a variety of reasons, including, among others:

- our ability to effectively manage our growth;
- global political and economic instability and other events beyond our control;
- increasing competition and consolidation in our industry;
- our advertiser concentration;
- our ability to maintain and increase our brand awareness;
- our ability to maintain and/or expand relationships with, and develop new relationships with, hotel chains and independent hotels as well as OTAs;
- our reliance on search engines, which may change their algorithms;
- our reliance on technology;
- the effect of the corporate reorganization;
- our material weakness in our internal control over financial reporting and our ability to establish and maintain an effective system of internal control over financial reporting;
- our ability to attract, train and retain executives and other qualified employees;
- our entrepreneurial culture and decentralized decision making;

as well as other risks and uncertainties detailed in our public filings with the SEC, including trivago's annual report on Form 20-F for the year ended December 31, 2016. Except as required by law, we undertake no obligation to update any forward-looking or other statements in this release, whether as a result of new information, future events or otherwise.
